

FDOT2008 GEOPAK Drainage Update

Presented by: James Worley
james.worley@dot.state.fl.us

Florida Department of Transportation
Engineering/CADD Systems Office
www.dot.state.fl.us/ecso/

What's new????

- New updated DLB.
- New more stable cross section criteria.
- New Summary of Drainage Structures MVBA.

New Updated DLB.

The new DLB for FDOT2008 has been updated to:

- Point to the new criteria files.
- Quantify correctly with the new pay item changes in the BOE.

New cross section criteria.

The new criteria updates include:

- More stable than ever before.
- Complies with the new paragraph & layout standards laid down by the FDOT Drainage Technical Advisory Committee (Drainage TAC).
- Written to minimize editing after the cross section run.
- Modularized to help advanced users create custom drainage structure cross section criteria.

Summary of Drainage Structures

The Summary of Drainage Structures MVBA is updated to:

- Use a GDF file to generate an Excel file.
- Use the new Excel file or an existing Excel file (created by the old MVBA from a GDF file) to make sheets in your drawing file.

Thank you for attending and
please feel free to send any
questions to me VIA e-mail.
